SUMMARY

BBA student with a foundation in financial accounting, business finance, and business management. Currently pursuing Master in Financial Accounting at VCEC Tally Academy and has completed MS Excel training. Familiar with Tally, Excel, AI-assisted research, and business fundamentals. Brings analytical thinking, attention to detail, problem-solving, and strong verbal and written communication. Seeking a finance internship to build practical experience in accounting, financial analysis, and reporting.

AREA OF EXPERTISE

Financial Accounting Fundamentals • MS Excel • Tally (foundational familiarity) • Basic Financial Analysis • Budgeting Fundamentals • Data Organization • Analytical Thinking • Attention to Detail • Problem-Solving • Communication

KEY ACHIEVEMENTS

Industrial Exposure: Visited Amul Factory and observed production processes, supply chain operations, quality control, and distribution workflows, gaining practical insight into business operations and cost-control practices.

Training Progress: Completed MS Excel training and IBM SkillsBuild AI Fundamentals certification; currently pursuing Master in Financial Accounting.

RELEVANT PROJECTS

Financial Data Analysis Using Excel — Suggested project to complete: analyze sample financial transactions, use formulas such as SUM, AVERAGE, IF, and percentage change, and present income and expense trends using tables or charts.

Financial Accounting Practice Using Tally — Suggested project to complete: practice recording sample sales, purchases, receipts, and payments, then prepare ledger accounts and a trial balance.
